

LET'S TALK >>

"The Bar is raised. It is no longer enough for design to be clever; now it must be thoughtful. It must consider, anticipate, analyse as never before, taking into account multiple viewpoints and human needs. It must take the long view on problem-solving, rather than focusing just on the immediate fix. And it must begin to traverse the old vertical boundaries and disciplines"

"IMAGINE DESIGN CREATE: How Designers, Architects, and Engineers Are Changing Our World" (by Tom Wujec - Editor)
